

Biolux Research Announces Memorandum of Understanding with Dong Seo Inc. of South Korea for its OsseoPulse™ Bone Regeneration System.

VANCOUVER, B.C., CANADA - September 18, 2007 - Biolux Research Ltd. announced today that it has signed a Memorandum of Understanding (MOU) with DIO Implant, a wholly owned subsidiary of Dong Seo Inc, which in turn is a KOSDAQ stock exchange listed company and one of Korea's leading dental implant manufacturers.

The MOU is for the purpose of product evaluation, marketing and completion of an exclusive distribution agreement for the OsseoPulse™ dental bone regeneration system in South Korea.

The OsseoPulse™ system is presently being developed by Biolux's joint venture partner Starfish Medical based in Victoria, B.C.. Starfish is guiding the product development and manufacturing as well as managing the regulatory approval process in Canada, Korea, Europe and the USA.

About Dong Seo Inc and DIO Implant

DIO Implant is a subsidiary of Dong Seo Inc. (DSI), a KOSDAQ exchange listed company with a market value approximately 160 Million US dollars. DIO implant is one of the best selling implant systems in Korea.

Production processes for the advanced DIO Dental implant system is approved by CE, FDA, KFDA and ISO-13485. 300 employees currently work for the dental implant business and produce a monthly volume of 35,000 units of dental implants and 300 sets of surgical kits.

DSI supplies DIO dental implant systems to more than 30 dental hospitals and 2,000 dental clinics and has over 13% of Korean domestic market share. DSI also exports the DIO dental implant system to number of countries including Australia, Vietnam, China, Mexico and the USA. For more information please visit: <http://www.dio.co.kr/en/>
